

Scott Lindberg – Senior Engineer

Summary

Mr. Lindberg is a Senior Engineer with GBMc & Associates, Inc. He has over 20 years of experience in civil and environmental engineering as a consultant, project design engineer, project manager, construction manager and inspector. He has performed water and sewer master planning, cost analysis, sewer system evaluation surveys, infiltration/inflow studies, and contract management for numerous private facilities and municipal water and sewer agencies. Mr. Lindberg has diverse experience in dealing with facility civil and environmental issues including Phase 1 environmental site assessments, NPDES, water and wastewater treatment, municipal solid waste, water distribution and storage, and wastewater collection and pumping.

Education

1973 BS General Engineering, Oregon State University

Experience

As a Design Engineer and Project Manager, Mr. Lindberg has been responsible for the design and construction management of numerous water and wastewater projects both private facility and municipal. He is experienced in the State loan and grant application process, which includes the composition of Preliminary Engineering Reports, cost estimating, and Environmental Reports. Many of these projects included the orchestration of the competitive bid process, Health Department approvals, and, in general terms, a complete coordination and management of the project for the client or municipality. These projects included virtually all areas of water and wastewater engineering, including new treatment plant design and plant expansion and modification, pump station design, modification, and troubleshooting, sewer rehabilitation, SSES and I/I reports, new water and sewer design for both new subdivision and existing unsewered areas, as well as project management, inspection, and project performance for all of the above.

Other experience includes NPDES permit renewal and permit modifications for various wastewater treatment plants and Annual Report compilations per ADEQ requirements and Class I and Class IV landfills. Mr. Lindberg has also has experience in solid waste facility design, landfill closure certification, and water and sewer utility master planning

Mr. Lindberg also has experience in golf course construction management and design and golf course irrigation design.
